

Turbine T2 ES

DRYING fast - quiet, - efficient

- Patent pending
- Continuously variable
- Extremely low weight

Technology and products for water damages, humidity, smell and radon

T2 ES is ground-breaking with its extremely low weight and unique technology.

- The T2 ES is built for professional users with high demands on ergonomics, efficiency and flexibility.
- A very compact size with very low weight and noise level; can be used in inhabited rooms.
- Variable air volume/pressure for optimised job specific installation and minimised energy consumption.
- Self monitoring for continuous operation on deployment.
- Stackable with a foldable handle that also contains the mains cord.
- To be used with Corroventa desiccant dryers for pressure- or suction drying.

TECHNICAL DATA

Air volume	Up to 180 m ³ /h (continuously variable)
Pressure	Up to 260 mbar (continuously variable)
Noise level	48 dB(A) at full power*
Consumption	0,75 kW
Power supply	230 V / 50 Hz
Weight	15 kg
Size	L x W x H 440x295x300 mm

* Dependent on installation
