

982 THERMAL FOGGER

Our heavy duty 982 Thermal Fogger is designed for multiple commercial applications. Effectively controls flying insects with oil based insecticides or odours caused by fire, smoke, pets, mildew etc. with oil-based deodorant.

With the barrel removed, the 982 turns into an all-purpose electric applicator for applying

- Heavy-Duty 3L spun-aluminium container
- Thermostatically controlled heating chamber
- Converts 30ml of oil based insecticide into approx. 57 cubic metres of fog in just 2 minutes
 - Flow rate adjustable knob
- Heating element easily removed to create a 30ml/min all-purpose applicator
